Dependable, reliable, quality. Combining the durability and strength of Meehanite® castings with precision engineering, Elite Geared Head Lathes turn out high quality components turn after turn. Designed with a universal gearbox to allow for a wide range of threading without gear changes, and Turcite-B coatings between the bed and carriage to provide smooth and accurate movement, these machines provide the perfect blend of performance and reliability you can come to expect from JET Elite.

FEATURES

- 4-Position Carriage Stop
- Anti-Float design eliminates backlash in the cross slide
- Certified Meehanite® Castings
- Certified Meehanite® castings retain their tolerances and remain rigid through many years of machining
- Enclosed coolant system contains excess coolant for increased safety
- Front facing chip pan allows easy chip removal from the front of the machine
- Full Length Splash Guard
- Fully lit with CNC style lighting, the enclosed full length splash guard is expertly designed to contain all chips and coolant
- Hardened and ground bedways
- Hardened and ground bedways provide accurate longitudinal movements
- Hardened and ground gears in headstock reduce vibration and deflection
- Nylon safety gears in the end train prevent overloading, increasing safety
- One-Shot lubrication in the carriage reduces maintenance
- Shear pin in the lead screw disengages the feed when overloaded, preventing damage to the apron and headstock
- Steady Rest-Ball Bearing
- Steady rests feature ball bearing guides for smooth material movements
- Turcite-B coating between bed and carriage provides friction free motion in all linear directions
- Wider bedways absorb vibration
