

JET CYCLONE SEPARATOR WITH BIN

717650

"The JET Cyclonic Separator maximizes dust collection efficiency by maintaining the air flow of a dust collection system by deflecting chips and large debris inline freeing up dust collection filters to trap fine particles. The red bullet separator deflects chips down ward in to a bin, reducing damage and obstruction to the dust collection hoses, impellers and filters. The JET Cyclonic Separator can be purchased with a 30 gallon steel bin that includes handles and 360° casters. The JET Cyclonic Separator also can be placed on the lid of almost any size container. Bolt pattern is included. Bring cyclonic power and efficiency inline.

FEATURES

- Clamping metal lid with gaskets prevents loss of suction.
- Clear polycarbonate material allows for viewing of separation
- Durable metal 30 gallon collection bin with window for viewing the fill capacity.
- Extends the life of the filter and impellers by extracting the larger debris before entering the dust collector.
- Includes: (2) 4" Wire Hose Clamps
- Maintain the air flow of a dust collection system by deflecting chips and large debris inline freeing up dust collection filters to trap fine particles.
- Swivel Casters and handle on bin make it easy to move around the shop
- The red bullet separator deflects chips down ward in to a bin, reducing damage and obstruction to the dust collection hoses, impellers and filters.

JET RED ASSURANCE 3-YEAR WARRANTY

JET warrants every product it sells. If one of our tools needs service or repair, one of our Authorized Service Centers located throughout the United States can give you quick service. In most cases, any of these JPW Industries Authorized Service Centers can authorize warranty repair, assist you in obtaining parts, or perform routine maintenance and major repair on your JET tools. For the name of an Authorized Service Center in your area call 1-800-274-6848.
