

JB-10R PORTABLE PLATE BEVELING STRAIGHT AND ROUND BEVELS

751010

Weighing roughly 20-pounds, the JET JB-10R is designed to produce both straight and round corner edge bevels and is equipped with a 1-horsepower brushless motor for powerful torque at every speed. The milling type cutter heads with carbide inserts provide precision beveling giving your piece a pristine finish or a clean cut for a stronger weld. R3 and R5 Indexible Inserts included, providing 2 curved radius beveling options.

FEATURES

- Brushless motor increases torque output and RPM's
- CE Certified
- Chamfers both straight & round materials with the change of the blade
- Cooling fan prevents overheating of the motor
- Cutting blade with 5 Indexable blades
- Depth of cut is adjustable 15 ° to 45 °
- Eliminates slow grinding, fumes, heat and smoke, saving both time and strain on the operator
- Portable, easy to move around the shop
- Temperature protected. If the temperature reaches over 105 ° C (221 ° F) the machine will automatically shut off.
- Three ball pins are added on the guide plate so the contact area can be adjusted at all times, ensuring a smooth chamfering process
- V-Block style creates consistent edge quality

JET RED ASSURANCE 2-YEAR WARRANTY

JET warrants every product it sells. If one of our tools needs service or repair, one of our Authorized Service Centers located throughout the United States can give you quick service. In most cases, any of these JPW Industries Authorized Service Centers can authorize warranty repair, assist you in obtaining parts, or perform routine maintenance and major repair on your JET tools. For the name of an Authorized Service Center in your area call 1-800-274-6848.
