Step 1. Install Control Box

Step 2. Install Lift Arms Right Side

Step 3. Install Lift Arms Left Side

Step 4. Install Lift Towers
Your RC4WD 1/10 Bendpak XPR-9S Two-Post Auto Lift is now ready to use.

- To operate, simply press the On/Off switch then hold the Up or Down arrow to raise or lower the lift arms.
- Each post incorporates kill switches on the top and bottom to prevent damaging the lift mechanism.
- If the lift arms are not on the same level simply lower the arms to the bottom to re-align.
- Be sure to turn the lift off when not in use to prevent damaging the batteries.

WARNING: Keep fingers clear of moving parts. May cause injury. Do not leave children unattended with this product!
