

1625

MONTY™ 1625 SERIES TIRE CHANGERS

The monty™1625 series are high-performance tire changers designed to service standard and performance wheels on automobiles and light trucks. The patented EasyMont™ pro bead assist on the monty™ 1625em holds the bead into the drop center, making one-operator tire changes possible on low-profile, high-performance and run-flat tires.

PATENTED SMARTSPEED™ TECHNOLOGY

- Innovative, patented technology that optimizes the torque applied to the wheel and automatically sets the maximum rotation speed of the wheel
- Variable from 7 RPM to 18 RPM offering the highest possible speed for maximum productivity

ACCOMMODATES LARGE WHEEL & TIRE ASSEMBLIES

- Allowing for a tire diameter of 50" on the monty™ 1625 / 42" on monty™ 1625em and outer-wheel diameters of 24"
- The monty[™] 1625/1625em can handle wheel and tire assemblies found on cars and light trucks

Dual wheel clamping cylinders

• Dual pneumatic clamping cylinders control all four clamping jaws, eliminating damage to wheels due to slippage

FOUR-JAW CLAMPING CHUCK

 Self-centering and clamps wheels with either 26" inner or 24" outer diameter

MULTI-POSITION BEAD BREAKER

- 6,000 lbs. of power at the bead shovel and a range of up to 18"
- The two-stage pneumatic cylinder provides precise power and can be toggled with the foot pedal as needed

POWERFUL TIRE INFLATION SYSTEM

- · Powerful air blast operated by the foot pedal
- Each movable jaw is precisely set to the exact position under the wheel to seal the tire bead

BUILT TO LAST

 Heavy, solid ½" thick steel clamping table, rugged steelreinforced chassis, rust-proof air cylinders and valves, compressed air lubricator and regulator on-board
