44 Ton Capacity
Air Operated
Hydraulic Floor Jack

INTENDED USE
Heavy duty truck, agricultural and heavy construction equipment. Ideal for loaded truck and trailer roadside service calls. Heavy enough for rail and bus work.

FEATURES
- 61.75” Long “T” handle helps in positioning jack under vehicles with low overhang.
- Handle locking lever secures handle in either vertical, horizontal or 45 degree position.
- Overload systems prevent cylinder damage and prevent the jack from being used beyond the ASME/PASE load-limiting standard.
- Rust inhibitive coating on rams offers longer life.
- Integrated filter protects air motor.
- Double acting pump raises ram more quickly to the load.
- Suspension loaded axle prevents wheel damage.
- Vacuum operated ram retraction eliminates manual lowering of jack.
- Safety button at the top of the handle can be pushed in to immediately stop the jack operation in case of emergency.
- A double acting pump raises the ram more quickly to the load.
- Includes a 2-3/4” diameter saddle, 2” and 4” long stackable extensions and extension holder.
