

PROFESSIONAL LIFTING EQUIPMENT

WHEN SAFETY DEPENDS ON PERFORMANCE!

78108

78108i IMPORT

1,250 Lbs. Capacity Engine Stand

INTENDED USE

For safe handling and positioning of most automotive engines, with heavier construction to handle the largest V8s.

FEATURES

- Fully adjustable engine mounting head.
- Long handle and 360 degree rotating head easily position engine.
- One bolt disassembles stand for transporting or storage.
- Heavy wall tubing prevents excessive frame flex.
- 2 rigid wheels in back and 2 locking swivel caster wheels in front provide maximum stability and support.
- Four bolts disassemble stand for transporting or storage.
