3,250 P.S.I.  
Air/Hydraulic Hand Pump

INTENDED USE
For automotive / truck, industrial & construction jobs. The added convenience of an air motor reduces pumping time and effort to activate cylinders.

FEATURES
- Steel reservoir body.
- Operates in all positions for increased versatility in use and mounting.
- Air exhaust muffler for quieter operation.
- Air and oil inlet filters for reduced risk of damage from contamination.
- Designed with durable light weight, corrosion resistant plastics.
- Manually activated push button for pumping and a lever for release of load.
- Designed to be used with a single-acting cylinder.
- Internal pressure relief valve for overload protection.
