

# HEAVY-DUTY OIL FILTER CRUSHER

HDC-150-94

The most effective solution for the storage and disposal of used oil filters is a filter crusher. JohnDow's heavy-duty oil filter crushers assure compliance with federal, state and local regulations for draining oil filters.

This rugged, steel filter crusher is constructed with an air/hydraulic design for long-lasting operation.

## Features include:

- Air/hydraulic operation for maximum crushing force
- Unitized construction for easy maintenance
- Door channel prevents drips and leakage
- Locator pins help center filter in the chamber
- Safety switch prevents operation when door is open
- Optional floor stands available
- Requires air filter/regulator/lubricator (Not included)

## SPECIFICATIONS:

HEIGHT	40"
WIDTH	12-3/4"
DEPTH	12-3/4"
MAX FILTER HEIGHT	13"
MAX FILTER DIAMETER	6"
CRUSHING FORCE	15 TONS
PUMP/TYPE	AIR/HYDRAULIC
WEIGHT	150 LBS.

## Floor stands & accessories

### Heavy-Duty Floor Stand: FS-300

- Measures 23" W x 23" D x 36" H
- Accommodates a 16-gallon drum to catch residual oil
- Weight: 40 lbs.

### Heavy-Duty Floor Stand - with Filter Drain: FS-400

- Measures 38" W x 23" D x 38" H
- Accommodates a 16-gallon drum to catch residual oil
- Includes an area to drain used filters before crushing
- Weight: 55 lbs.

### Filter/Regulator/Lubricator: FRL-1

For long-term and trouble-free operation of the air/hydraulic pump it is important that the air supply be filtered for moisture. The FRL-1 is an all-in-one unit and is required for use with the AFC-100-94 and HDC-150-94.

- Weight: 1 lb.
