

# 2-TON TRIPOD UNDERHOIST STAND

**TP4000**

## OPTIMIZE VEHICLE SUPPORT WHEN WORKING WITH AN IN-GROUND OR ABOVE-GROUND LIFT

These auxiliary supports offer additional stability for elevated vehicle parts during both installation and removal processes. Equipped with adjustable saddles, these supports facilitate a broad spectrum of movement, aiding in the placement and extraction of various components such as transmissions, u-joints, radiators, driveshafts, exhaust systems, and catalytic converters and more.

Designed to Support Vehicle (works best in pairs)

Ideal for Exhaust and Suspension Work

Use to Support Vehicle Components

Disassembles for Storage

2-TON TRIPOD UNDERHOIST STAND	TP4000
CAPACITY	2 TON
HEIGHT INTERVALS	4 X 5.6 INCHES
MAXIMUM HEIGHT	76.00 INCHES
MINIMUM HEIGHT	55.5 INCHES
SADDLE DIMENSION	2.3 X 3.5 INCHES
