

PROFESSIONAL LIFTING EQUIPMENT

# WHEN SAFETY DEPENDS ON PERFORMANCE!

**78155**

## 1,250 Lbs. Capacity 75:1 Gear-Driven Engine Stand

### INTENDED USE

*For safe handling and positioning of automotive engines weighing up to 1,250 pounds.*

### KEY DIFFERENCE

*The 78155 is a dramatically-improved version of the 78125. Its 75:1 gear box makes turning the heaviest engines effortless! All of the optional engine mounting adapters will work on either model.*

### FEATURES

- 75:1 ratio gearbox activated by hand crank easily turns the 360 degree rotating head to the desired work position.
- Fully adjustable engine mounting head.
- Two rigid rear wheels. One of the two front swivel casters has a lock for maximum stability and support.
- Polyurethane wheels provide protection for expensive tile and epoxy floors.
- Telescopic base locks into any one of four different positions to extend the length of the stand for added stability when required.

Model #	Capacity	Height	Width		Length		Weight
			Front	Rear	From	To	
<b>78155</b>	<b>1,250 lbs.</b>	42"	21.25"	40"	38.25"	53.25"	223 lbs.
