TILT-BACK TIRE CHANGER

ENGINEERING UNLEASHED™

monty® 3550

PNEUMATIC TILT BACK TIRE CHANGER

The monty® 3550 blends traditional design elements with state-of-the-art features to make the tire changing process more efficient, avoiding potential damage to the wheel. It is a superior solution for smaller-scale high-volume shops in need of a versatile machine to service automobiles, SUVs, and light trucks. The on-floor bead breaker integrates with the tilt-tower configuration to facilitate effortless wheel placement, reducing technician fatigue and eliminating the potential for wheel damage.

SMARTSPEED™

Self-adjusting technology provides the optimum torque and maximizes the rotation speed for safe, efficient operation. This model can also be offered in a single-speed option. (115V without smartSpeed™).

RIM CLAMPING BEAD SEATER

A direct burst of compressed air comes through the clamping jaws to facilitate bead seating.

PNEUMATIC BEAD PUSHER

Swift and ergonomically designed, this feature effectively accelerates the process of positioning the mounting head on all types of wheels.

ON-FLOOR BEAD BREAKER

A conventional side-shovel bead breaker, featuring an ergonomically positioned pedal control situated a small distance from the shovel, is the quickest solution for efficiently handling a range of tires.
