

Rolling Jacks

- ★ 9,000 lb. lifting capacity
- ★ Dual air bags (No Hydraulics)
- ★ Includes rubber support pads
- ★ 3" and 6" stackable adapters
- ★ Dual push button control allows the operator to raise the jack while keeping both hands in a safe position.
- ★ The universal mounting brackets adjust to a lift rail opening of 38 ¹¹/₁₆" to 52 ³/₁₆" measured from the center of the rail.
- ★ The rollers compress while under load to prevent the jack from rolling while in operation.
- ★ Lowering is accomplished with one hand on the release lever and the other hand releasing the mechanical safety stop.
- ★ Total weight of jack - 350 lb.
